COMPANY OVERVIEW

BK Power Control is a trusted and experienced solution provider in industrial electrical systems and power control infrastructure.

With over 25 years of industry expertise, we specialize in delivering high-performance electrical control panels, turnkey electrification services, and customized power management solutions for manufacturing units, plants, and industrial establishments across India.

We ensure engineering precision, safety compliance, on-time delivery, and reliable technical support – enabling industries to operate with efficiency and uninterrupted power performance.

Key Highlights:

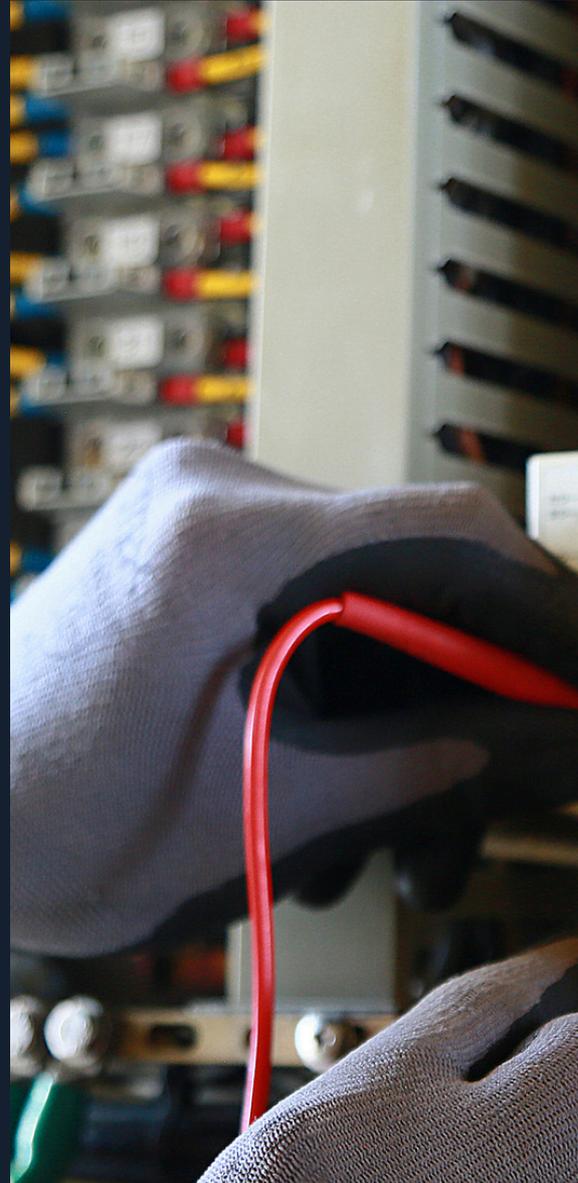

- 25+ Years of Industry Experience
- 500+ Satisfied Industrial Clients
- 200+ Skilled Technical & Field Professionals
- End-to-End Electrical & Power Control Solutions

ABOUT THE COMPANY

BK Power Control was established with a clear vision: to provide industries with robust, efficient, and reliable electrical control solutions that enhance productivity and operational safety.

Over the years, we have built a strong reputation for technical expertise, precision engineering, and customer-centric service delivery.

We design, develop, install, and maintain a complete range of Electrical Control Panels and Industrial Power Distribution Systems, tailored to meet the functional and safety requirements of each project.

We serve a wide range of industries including Automobile, Packaging, Manufacturing, Engineering, Steel, and Infrastructure, offering both turnkey electrification and long-term operational support.

Our Commitments:

- Engineering Excellence & Custom-Built Solutions
- Safety Compliant & Standardized Procedures
- Efficient Project Execution & Timely Completion
- Long-Term Reliability and After-Sales Support

Message from the MD

Customer satisfaction has been our core principle for more than two decades.

Our sustained success is built on expert craftsmanship, advanced technology, and a commitment to delivering exceptional quality. We believe in enhancing our customers' brand value through precision, reliability, and innovation.

Our products are designed and manufactured to match international standards, ensuring durability, performance, and operational excellence.

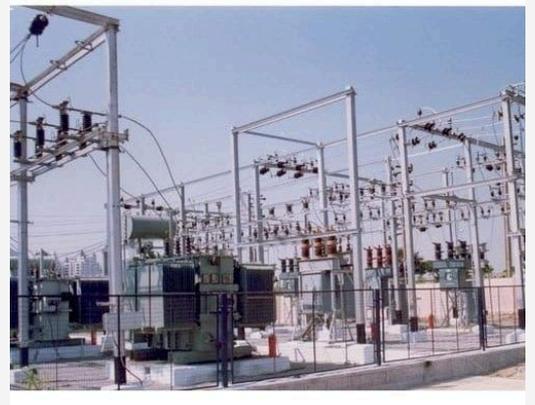

Over the years, we have successfully catered to diverse sectors including industrial manufacturing, commercial infrastructure, data centers, pharmaceuticals, marine, and railways, among others.

We serve as trusted suppliers to leading private and corporate organizations, maintaining strict quality control and using only the finest grade raw materials.

Every product we deliver reflects perfection, meeting both domestic and export compliance standards. Along with custom-designed solutions, we focus on process standardization to offer consistency, efficiency, and superior value to our clients.

Warm regards,
Mr. Satybhan Singh
MD

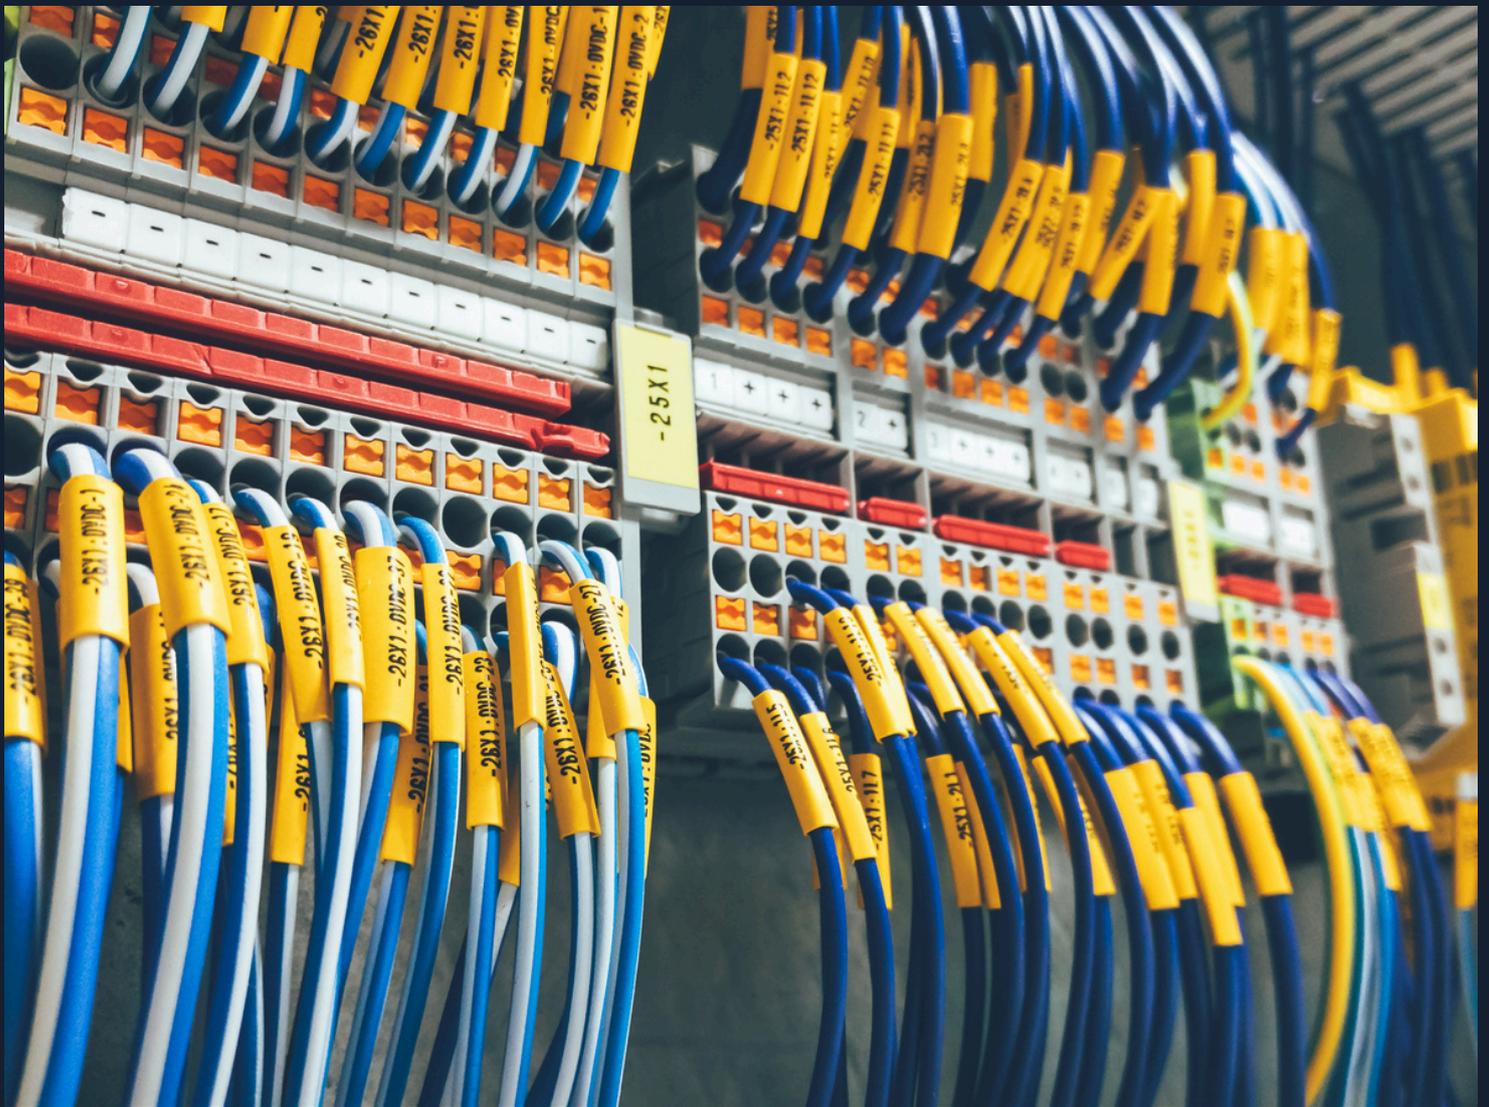

GALLERY

MISSION

To deliver high-quality electrical control and power management solutions that enable industries to operate safely, efficiently, and sustainably. We aim to consistently achieve excellence through engineering innovation, reliable execution, and customer-focused service.

VISION

To be recognized as a leading electrical solutions provider in India, known for technical expertise, commitment to quality, and long-term reliability.

CORE VALUE

Integrity

We honor our commitments and practice transparent operations.

Quality

Every product and service meets strict industrial standards

Safety

Safety-first approach in design, installation, and field execution

Customer Focus

We work as a long-term partner, not just a supplier

OUR SERVICES

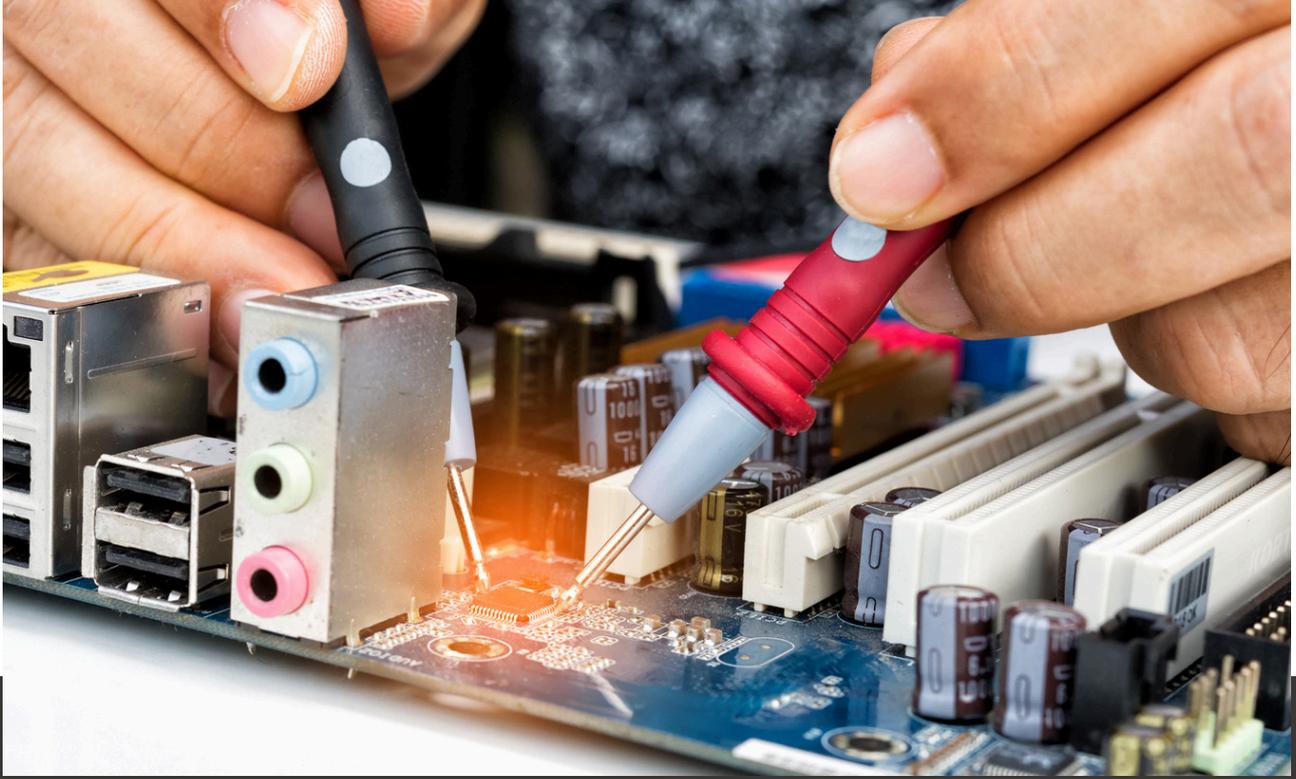

Design & Manufacturing of Electrical Control Panels

We design and manufacture high-quality Electrical Control Panels including PCC, MCC, APFC, and VFD panels. Each panel is engineered for reliability, safety, and performance, ensuring seamless power distribution and control in industrial operations while adhering to IS/IEC standards for long-term, trouble-free functioning.

Turnkey Industrial Electrification

Our turnkey electrical solutions cover design, supply, installation, and commissioning of HT/LT systems for industrial plants and commercial facilities. With a team of skilled engineers and advanced project management, we ensure safe, efficient, and timely execution from concept to completion, meeting every client's operational requirement.

Cable Laying & Termination

We undertake complete cable laying and termination for underground and overhead systems, using high-quality materials and precision methods. Our experienced technicians ensure reliable connectivity, minimal downtime, and adherence to electrical safety standards — enabling smooth power flow and enhanced system efficiency across large-scale industrial sites.

Installation & Commissioning

BK Power Control provides comprehensive installation and commissioning services for electrical systems and panels. We ensure perfect alignment with design specifications, conduct pre-operation testing, and deliver ready-to-run systems that guarantee efficiency, safety, and operational reliability for all types of industrial applications.

OUR PROJECTS

Sr. No.	Client / Project Name	Location	Scope of Work / Description
1	Grass Warehousing Corporation	Kulana	Complete electrical installation and control panel supply for warehousing facility.
2	Dhawan Box Sheet Containers Pvt. Ltd.	Ghilot	Turnkey electrical project including panel installation and cable laying.
3	Ardex Endura India Pvt. Ltd.	Ghilot	Electrical control panel supply and commissioning for manufacturing unit.
4	Highway Roop Precision	Sohna	Power distribution and control setup for industrial operations.
5	Startup Energy Pvt. Ltd.	Karoli	HT/LT installation and system commissioning.
6	Bhagwati Products Ltd.	Karoli	Turnkey electrification and panel integration.
7	Kaenat Glass India Pvt. Ltd.	Bhiwadi	Complete electrical infrastructure and control systems.
8	Reliance Industries Ltd.	Deoli rajasthan Ambheta gujarat	Industrial electrical works and maintenance support as per project scope.
9	Auto International Pvt. Ltd.	Bhiwadi	Electrical panel manufacturing and on-site commissioning.
10	Aristocraft India Pvt. Ltd.	Paonta Sahib	Electrical control solutions and power management system.
11	Svarn Infratel Pvt. Ltd.	Ghilot	Turnkey electrical setup and power control installation.
12	Jaquar bathing	Bhiwadi	Electrical panel fabrication, installation, and commissioning for production unit.
